Chef de projet et expert en benchmarking

M. Haezebrouc is a Project Manager at VNG International and has over 4 years of professional experience in project management and monitoring, contract administration, project formulation and backstopping of international projects funded by national and international donors focussing on various facets of strengthening local government.

Mr Haezebrouc has proven working experience in the public and private sector with focus on decentralisation, benchmarking, participatory governance, service delivery, conflict , role of law and local security in various European (Turkey, the Netherlands, Belgium) and African countries (Mali, Burundi, Rwanda, DR Congo).

Furthermore he has proven experience in coordinating and implementing municipal learning Benchmarks in a wide range of countries (amongst others Rwanda, Burundi, DRC and Turkey) on a variety of topics such as public security, land management and public private partnerships.

This includes designing the benchmark questionnaire, setting up online benchmark platforms, analysing the collected data, writing benchmark reports and facilitating benchmark learning workshops.
