

African Local Governments - Contributing Towards African Unity

mercredi 25 juillet 2018

Consolidated Regional Seminars Report August-December 2015 UCLG Africa

The Regional Seminars had three broad aims :

- (i) to apprise local government leaders on contemporary relevant and pertinent global discourse and positions that directly impinge the operations of local authorities ;
- (ii) to strengthen the UCLG-Africa and local authorities as a network that is representative of the sector and its citizens ; and
- (iii) galvanise support for the UCLG-Africa flagship networking and information event, the Africities Summit. Mayors of large cities and political and technical leaders of national associations of local authorities attended the Regional Seminars that were conducted in each of the five regions of Africa.
